

CITY OF DUNCAN

Public Works Department

PUBLIC SERVICE ANNOUNCEMENT

Please be advised that the City of Duncan, per best management practices as published by the US Environmental Protection Agency and Oklahoma Department of Environmental Quality, has temporarily changed the disinfectant for our potable water. The temporary change has been made to help maintain the integrity of our distribution system.

During this period of time, approximately four to six weeks, you may notice a smell of chlorine emanating from the water. Although an inconvenience, this is normal and expected. Please rest assured that the water will remain safe for consumption at all times.

If you have questions, please contact the Public Works Department at (580)470-2095

G. Alex Henry, E.I.
Public Works Director
